TECHNICAL SKILLS

Languages: JavaScript, TypeScript, PHP
Frameworks and Libraries: React.js (Next.js), Node.js, Express, Zustand, TanStack, SWR, Tailwind CSS, shadcn/ui
Developer Tools: Git, GitHub, NPM

EXPERIENCE

IT Programmer <i>Arkray Industry Inc.</i>	<i>July 2025 – Present</i> Fulltime – Onsite
- Developed a comprehensive Fixed Asset Monitoring System with financial depreciation tracking, audit logs, and automated PDF tag generation. - Engineered a purchase and vendor request system featuring multi-level approval workflows and automated routing for final accounting department sign-off. - Deployed a centralized Internal Testing & Examination System used to handle technical screenings for job applicants and employee evaluation assessments. - Modernized legacy database interfaces with responsive, minimalist layouts to optimize system workflow velocity and eliminate internal user data entry errors.	
Software Developer Intern <i>Bridge Consultancy FZE</i>	<i>February 2025 – May 2025</i> Internship – Remote
- Designed and developed a full-stack invoicing system using Next.js and Supabase. - Implemented complete CRUD functionality with a RESTful API architecture. - Enhanced the invoice creation process by building a user-friendly interface and efficient data handling.	

PROJECTS

OfferOrb <i>TypeScript, React.js (Next.js), Ollama</i> <i>GitHub:</i> https://github.com/mikkouson/OfferOrb	<i>December 2025</i>
- Built an AI-powered tool that compares job offers and generates clear, structured decision insights - Integrated Ollama gpt-oss:120b-cloud API to analyze roles, pros, cons, and overall fit - Designed a clean, user-focused interface to simplify complex career decisions	
Dental Clinic Management System <i>TypeScript, React.js (Next.js), Supabase</i> <i>GitHub:</i> https://github.com/mikkouson/Dental-Appointment-Management-System	<i>December 2024</i>
- Developed a full-stack web application for appointments and admin management. - Built a dedicated subdomain for admin management. - Utilized Supabase for real-time data synchronization and management.	
KanbanFlow <i>React.js, Express, Git, MongoDB</i> <i>GitHub:</i> https://github.com/mikkouson/Kanban	<i>May 2024</i>
- Developed a full-stack web application using React.js and MongoDB for users to add and manage tasks seamlessly. - Utilized Express to create a RESTful API with authentication and query parameter support. - Implemented a real-time update feature for task status, enhancing user experience.	
Apartment Management System <i>PHP, Git, MySQL</i> <i>GitHub:</i> https://github.com/mikkouson/Apartment-MGT	<i>September 2023</i>
- Implemented CRUD functionality for managing apartments and tenant information. - Developed a system for tenants to log maintenance requests and track progress. - Created a user-friendly dashboard for real-time tracking of apartment availability and tenant information.	

EDUCATION

Bachelor of Science in Information Technology – College Batangas State University Lipa Campus	2021 – 2025
Information and Communication Technology – Senior High School STI Lipa Campus	2019 – 2021
